

## **South Carolina Department of Mental Health Developmental Specialty Clinics**

### **Developmental Disorders Clinic (DDC)**

The DDC provides a multidisciplinary evaluation for children who have or are suspected of having Autism Spectrum Disorders, including autistic disorder, Asperger's Disorder, pervasive developmental disorder NOS, and childhood disintegrative disorder. Recommendations are reviewed with and given to the parent or guardian. Children who are in need of ongoing treatment may also receive individual, family, and group therapy in conjunction with medication management.

**Contact:** Elizabeth Wilkinson, LMSW  
**Phone:** 803-898-2276.

### **Infant and Early Childhood Evaluation and Treatment Clinic (IECHETC)**

The IECHETC Clinic provides a multidisciplinary assessment, planned treatment intervention, and follow-up care for infants up to three years old. Recommendations are reviewed with and given to the parent or guardian. Children who are in need of ongoing treatment may also receive individual and family therapy in conjunction with medication management.
